**Larger Collections will be made by us
at a very low price.**

WE WILL ALSO MAKE UP SPECIAL COLLECTIONS TO ORDER.

GEO. A. WEAVER COMPANY,

CATALOGUE OF

Bulbs and Flowering Roots FOR FALL PLANTING.

The growing of Bulbs for winter and spring-flowering is very interesting and very easy. If the directions given in this Catalogue are observed, there need be no disappointment with the results. Many of our most beautiful flowers are produced from bulbs, and they may be grown indoors in the winter months, when flowers are most appreciated. By successive plantings a constant supply of flowers may be had from December till May.

We invite special attention to the collection of bulbs offered on the second page of cover, both for indoor and outdoor cultivation. They contain only sorts that will insure satisfaction.

Our Bulbs are all selected, and from the best growers, and should not be confounded with the cheap "case" bulbs sent to this country on speculation and often sold at auction, and otherwise, at very low prices.

ORDERS should be sent as soon as possible after receipt of this Catalogue.

SELECT NAMED HYACINTHS.

The Single-flowered varieties are generally more effective than the Double ones. They also, as a rule, succeed better in glasses. The Double varieties are distinguished by an asterisk (*), and those of them that do well in water by two asterisks (**).

If ordered by mail, please add 15 cents per dozen for postage.

MIXED HYACINTHS IN SEPARATE COLORS.

Suitable either for forcing or bedding.

Our Mixed Hyacinths should not be confounded with the small-sized, low-priced mixtures often sold. Our bulbs are all large size, measuring 6 inches and over in circumference. Being furnished in so many separate colors, splendid bedding effects may be produced with them. They are also admirably adapted for forcing in the greenhouse for winter cut-flowers.

If ordered by mail, add 15 cents per dozen for postage.

Three of a color at dozen rates, 25 of a color at 100 rates.

ROMAN HYACINTHS.

Extensively used by florists for forcing for cut-flowers. For this purpose they are the best and most popular of bulbs. The flowers are pure white, delightfully fragrant, and each bulb will throw up from three to four spikes.

If by mail, add 10 cents per dozen for postage.

PARROT TULIPS.

For out-door cultivation. The petals of these have feathered edges, and in addition to other colors combined shades of green—a peculiarity confined to this class. The flowers are very singular and picturesque, of large size and brilliant color, and form very effective groupes for the flower border.
Very late in flowering.

If ordered by mail, add 6 cents per dozen for postage.

Cafe Brown. Brown and yellow-striped, 5c. each, 35c. per doz., \$2 per 100.

Constantinople. Large, blood-colored flowers, tipped with orange, 5c. each, 35c. per doz., \$2 per 100.

Lutea Major. Large, yellow flowers, 5c. each, 35c. per doz., \$2 per 100.

Markgrave of Baden. Bright yellow flowers, striped with scarlet, 5c. each, 35c. per doz., \$2 per 100.

Perfecta. Yellow, spotted red, 5c. each, 35c. per doz., \$2 per 100.

Mixed, all colors. 3 for 10c., 30c. per doz., \$1.50 per 100.

MIXED TULIPS.

For bedding. Planted in large masses, these make a magnificent show and, being inexpensive, should be largely used. Our special mixtures of Early Single and Early Double Tulips are made up of the finest bulbs and the brightest colors. If planted in large beds, they will produce an exceedingly beautiful and lively effect.

If ordered by mail, add 6 cents per dozen for postage.

NARCISSUS.

Narcissi are Ready for Delivery in September.

The very beautiful species and varieties of Narcissus are among the most popular and largely grown of spring-flowering bulbs, and that deservedly, too, for they are certainly “the fairest among them all.” Their exquisite grace, beauty and charm of habit have been immortalized in the poetry of all times. No garden should be without them.

Narcissi are also very suitable for growing in pots, requiring about the same treatment as hyacinths, with 3 or 4 bulbs in a 5-inch pot. Some of the varieties are grown in large numbers by florists for winter cut-flowers.

SINGLE NARCISSUS, or DAFFODILS.

If ordered by mail, add 13 cents per dozen for postage.

LILIES.

For stateliness of habit, beauty of form, and variety of coloring, the Lily is without a rival among bulbous plants. Many of the species are delightfully fragrant. Though they may nearly all be called hardy, it is well to protect them against frost in winter by a covering of ashes or litter. They are easily grown, and require little care. With the exception of *L. candidum* and *L. tigrinum*, which prefer a rich, deep loam, they all do best in a light, well-drained soil. Some peat or leaf-mould may be used to advantage. *L. auratum* cannot bear manure, but thrives in ordinary light soil. They all prefer a partial shade, and the taller sorts must have protection from high winds. Many of the stronger growing kinds are well adapted for planting among shrubs. Most of them make splendid conservatory plants. For pot culture, a compost of loam and peat in equal parts, with the addition of some sand is recommended.

Lilium Harrisii and Lilium candidum ready in August; all others not till November

If ordered by mail, add 3 cents each for those marked (); others from 1 to 2 cents each for postage.*

	Each.	Per doz.
*Atrosanguineum (Fulgens). Dark crimson, black spots; very handsome.....	\$0 25	\$2 25

LILIUM HARRISII.

(BERMUDA EASTER LILY.)

Bulbs ready now.

The Bermuda Easter Lily is perhaps the finest and most popular of winter-blooming plants. The large, handsome, pure-white, trumpet-shaped flowers are very sweet-scented and of great substance, and last a long time after cutting. Its stately and graceful habit renders it a perfect pot-plant for table and window decorations. It gets its popular name from the fact that it is so largely used for church decoration at Easter. It is easily grown and can be forced into flower in a remarkably short time. It is also well adapted to garden culture, but in this latitude the bulbs should have a good covering of ashes or litter to protect them over winter.

If ordered by mail, add from 10 to 20 cents per dozen for postage, according to size.

CHINESE SACRED LILY.

(THE WATER-FAIRY FLOWER.)

Ready in September.

A variety of the Polyanthus Narcissus, imported from China.

The bulbs should be placed from 3 to 6 in a bowl or glass dish of water which has been partly filled with pebbles, some of which place over the bulbs so as to prevent them from floating. The water should be tepid and changed every two days. Submerge the bulb entirely, and place in a sunny window in a cool room.

12 cts. each, \$1.25 per dozen.

BEAUTIFUL JAPAN LILIES.

These do not generally arrive till November and December. We import our supply direct from Japan every year. Every garden should have some of these most beautiful and easily grown Lilies.

Postage on these articles varies from 2 to 10 cents on each, according to size.

Auratum (Golden-Banded Lily). The grandest of all hardy Lilies; flowers white, spotted with maroon, having a bright yellow band through the center of each petal. The plant grows from 3 to 6 ft. high.

	Each.	Per doz.	100.

Kramerii . White, slightly tinged with red; sweet-scented.....	15	1 50	

LILY-OF-THE-VALLEY.

(*CONVALLARIA MAJALIS*.)

Ready in November.

One of the most beautiful and admired spring-flowering plants, and universally sought for its neat and chaste outline and delicate odor. They generally flower in three or four weeks after planting. They require a considerable amount of heat to start them.

Convallaria majalis. White flowers; fine large clumps, with 15 or more flowering pips on each. Fine for planting outside in shaded positions, and for naturalizing by the side of streams or wood walks. 30c. each, \$3 00 per doz.

Convallaria majalis. Strong pips for forcing. 50c. per bundle of 25, \$1.75 per 100, \$14.00 per 1,000.

AMARYLLIS.

TUBEROUS-ROOTED BEGONIAS.

Ready in November.

Splendid pot plants for the house or greenhouse and especially valuable for bedding, flowering in the greatest profusion throughout the summer. For bedding they should be started in hotbed in March and April. The hollow end of the bulb should be up and but slightly covered. They should get very little water until the plants are growing.

FREESIA.

Freesia refracta alba. Pure white and sweet-scented; very largely forced. It is one of the prettiest bulbous plants known. The flowers are 2 inches long, and about the same in width, shaped like miniature gladioli, and in clusters of 6 to 10, on depressed horizontal scapes. The body of the flower is pure white, with lower segments spotted lemon-yellow. There is a peculiar delicacy and beauty about this flower that is all its own; the fragrance is remarkable and very lasting.

GLOXINIAS.

Ready in November.

Gloxinias are among the most beautiful of greenhouse plants, the flowers being remarkable for the intensity and variety of their coloring, and the exquisite manner in which they are often blotched, mottled, penciled and blended. The plants are extremely floriferous and, by making successive pottings, they may be had in bloom the greater part of the year. They thrive best in a soil composed of leaf-mould and peat in equal parts, with a little sand added. When growing, plenty of water should be supplied, but it should always be tepid. The bulbs we offer are large-sized, and of the erect-flowering strain. 12c. each, \$1.25 per doz., \$7.00 per 100.

IRIS. (FLEUR-DE-LIS.)

Ready in October and November.

Irises are of easy culture, requiring very little attention after once being planted. They do best in a light, rich, sandy soil, and in a sunny situation. Good drainage is very important.

Success. Early, large, bright crimson color, high flavor and continues bearing a long time.....	1 00	3 00

Grass Seeds for Autumn Sowing.

BELLEVUE AVENUE LAWN MIXTURE.

This is distinctively our own mixture, composed exclusively of the grasses that our long experience has proved to be the most suitable for American lawns, making the most lasting turf of the richest color and finest texture. Bellevue Avenue Lawn Grass should be sown at the rate of 4 or 5 bushels to the acre.

Newport Golf Links Mixture. The Newport Links, sown with our mixture, has been admired and praised this season by Golfers from all over the world, who declare that it cannot be surpassed.

South Park Mixture. Composed of grasses making a quick growth, and forming a close, compact sod.

Mixture for Shady Locations. This is a mixture of such grasses as are best suited to grow in locations partly shaded, such as orchards, shrubberies, etc.

Weaver's Mixture for Permanent Pastures. Composed of grasses and clovers best suited for permanent pastures. Great care is used in the selection of the varieties composing this mixture.

Add 8 cents per pound if ordered by mail.
